ANNOUNCEMENTS.

To the Voters and People generally, of the 2nd Congressional District.

In announcing myself as a candidate of the trict. for Congress, I, now, briefly lay down some leading principles and propositions I shall maintain before them. That money is a sovereign power of the

lst. That money is a sovereign power of the people; should never have been farmed out to cor, orations; and, in accordance with the opinions of Jefferson and Calhoun, should be promptly reclaimed, and exerted, in both its issue and nanagement, by the nation only. management, by the nation only.

2nd. That money, in its constitution and that
matter, is not "matter of gold, or silver, or paper." but is the mobolized, cooperative, or "executive power" of the people to effect the exchanges of labor and property, and may by their
stamp—"image and superscriptions"—be exerted
by a currency of gold, silver, or paper, or the

three jointly, and equally, made full legal tenders for all does, public and private.

3rd That all the gold, and all the silver we have, should be coined and used as currency, and supplemented with greenbacks or treasury-notes, up to a volume of currency adequate to the demands of commerce, trade, and exchanges, upon the cash principle.

4th. That, through a bureau to be established in the Treasury department of the national government, and bureaus in the several States, greenbacks, or treasury notes, should be loaned by the general government to the States at one per cent, and by the States to the counties at two per cont, and by the counties to the people

by the general government to the States at one per cent, and by the States to the counties at two per cent, and by the counties to the people at three per cent, upon their securities to be decided on and declared by Congress; the money to be retained as long as interest is paid, or the loan to be returned at the option of the borrower; thus relieving the people, and exterminating usnry, "without usnry laws."

5th. That this relief to a suffering people cannot be obtained through either of the old parties, and hence the necessity of a combination of the masses of the people of both parties into a new party for their own safety and relief. The Republican party is avowedly a hard money party, and the Democratic party, even if at the 11th hour, it adopts the greenback system, is a "divided house" and cannot give relief: The Northern members of the party are all for hard money, and many leading members, also, of the South—as Bayard, Lamar, and Ben Hill of Georgia.

With the announcement of these general principles and propositions for the consideration of the voters and people of this District, and others, and to be as brief as possible. I will now conclude and to be as brief as possible. I will now conclude by saving that it is my purpose to visit every county in the District; to speak wherever I am requested, or there is an opportunity, and to confer with and be questioned by the ceople at large upon their vital interests in this great and insteament and my amount.

SUMAC AND BARK.

May 15, 1977.

WILL buy SUMACLEAVES that are gathered in due time and properly cured according to the following directions, and pay Cash for them

SUMAC AND BARK MILLS, WINCHESTER.

SUMAC AND BARK MILLS, WINCHESTER.

Diagctions — The Sumac should be taken while the sap is still in the leaf—and before it has turned red, say as a general thing, during the latter part of June, July and August, but in no case after it has begun to dry up and deaden, nor after the least frost. The Red Berries must all be thrown out.—The Little Low, or Black Sumac, as it is called, is as good as any, and can be taken later, being more hardy. It may be wilted in the sun, but must be cured under cover, and got allowed to Le burnt by the sun or to get wel, or to be in such large quantities as to heel in curing—any of which deatroys its color and strength and renders it valueless. It should not be thrown upon a tight floor to cure, but raised up, so as to let the air get under it; and by shelving loosely much surface can be obtained in a small space, and the Sumac will cure faster. All Sumac should be gathered at least a month before it is sufficiently cured to be brought in for sale, and in bad weather even a longer time may be required to properly dry it; for not only the leaf, but the twig too, must be theroughly dry; so that it will snap short off, like a clay pipe stem, or it cannot be received, for it will heat and spoil—this must be strictly observed.

However long Sumac may have been taken or however dry it may be, it will draw the dampness from the atmosphere in a damp time, and must not be bleached nor look dark and dead, nor smell must to the bleached nor look dark and dead, nor smell must to the bleached nor look dark and dead, nor smell must green. It must be dry. Sumac should have the same given, bright color and fresh oppearance when cured as when taken from the bush, and must not be bleached nor look dark and dead, nor smell must green. It is just as important to have your sould mead to the bleached nor look dark and dead, nor smell must green the form of any kind, or any other kind of leaves, are found smooth ti, it will not be bought at ony price at all; and hy mixing poor with good you spoil all.

Leaves apart and prevent them from heating, when leaves apart and prevent them from heating, when first gathered; sud by a little threabing before the Sumac gris too dry, so as not to break up too much - the Stems can be easily separated, leaving the Leaf in good condition for bagging when thorough-by cured, and new shoots will spring up next sea-son, bearing more and farger leaves than the old

When your Sumac is all ready for delivery, Bage will be furnished for bringing it in; but they must be well filled and promptly returned with care.— Any one getting Bags for others will be held re-sponsible for the return of the same, and all Bags sponsore for the return of the saide, and all slaves not returned will have to be paid for. Will allow Seventy five Cts. per 100 lbs. for Good Sumac Leaves at any Station from Cumberland to Harisonburg, on the Baltimore and Ohio Railross risonburg, on the Bairimore and Ohlo Railroad.
39 Shippers should in all cases pack the bags well
and sew them up securely, and put some Mark on
each Bag, and notify me by mail, before shipment
if possible, how many lags and what mark, that
I may know to whom the different lots often received in the same car, belong; and have them
assorted, weighed and inspected separately, when recrived, by having been advised beforehand by the shippers and thus save much confusion, trouble
